Question-1:

Create a Bucket in IBM object storage.

Solution:

The screenshot shows the 'Custom bucket' creation page in the IBM Cloud console. At the top, the title 'Custom bucket' is displayed. Below it, the 'Unique bucket name' field contains the text 'bucket'. A blue information box titled 'Bucket naming rules:' is visible, listing the following rules:

- Must be unique across the whole IBM Cloud Object Storage system
- Do not use any personal information (any part of a name, address, financial or security accounts or SSN)
- Must start and end in alphanumeric characters (3 to 63)
- Characters allowed: lowercase, numbers and nonconsecutive dots and hyphens

Below the rules box, the 'Resiliency' section is shown with a link to 'View options'. Three options are available:

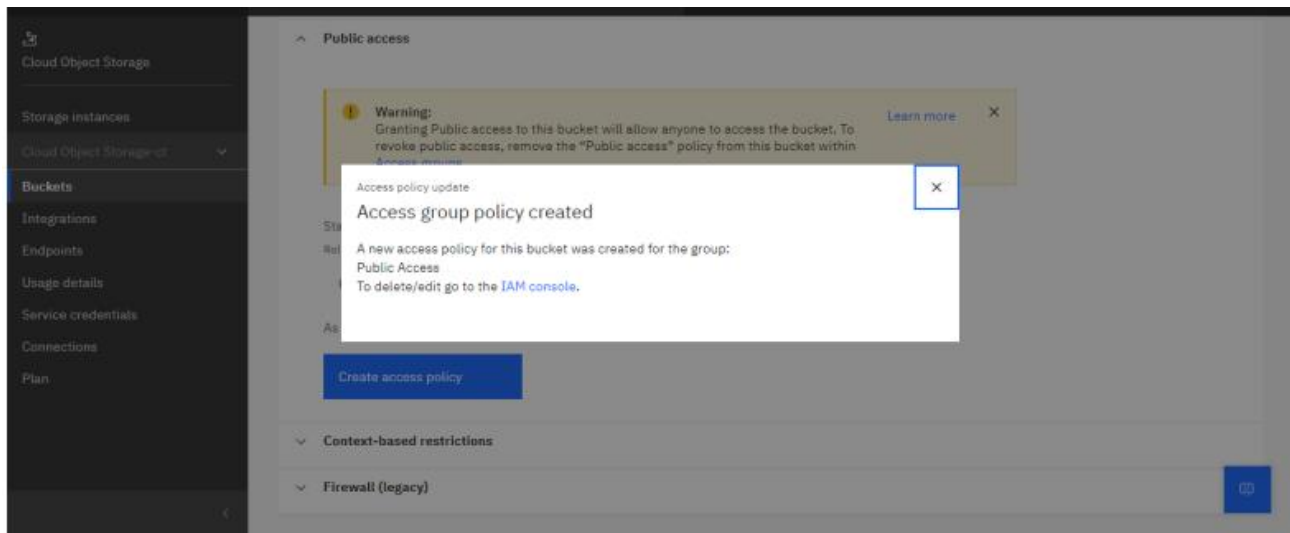

- Cross Region**: Highest availability (represented by a globe icon)
- Regional**: Best performance (represented by a building icon and is selected with a radio button)
- Single Site**: Data sovereignty (represented by a server rack icon)

A blue chat icon is located in the bottom right corner of the interface.

Question-2:

Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

Solution:
